To Whom It May Cocern

This letter is to verify that Mr. Robel Tesfamariam to support for the employers appoint him. Mr. Robel has been working from january 2013 to August 2016 as full time in our company Liya Enterprise Solutions, Educational and training and prominent ICT solutions provider in Eritrea. During Mr. Robel Tesfamariam employment , successfully conducted in the fields of requirement Engineering and elicitation , software specification , software development , software testing and verification. He has hard working, Devoted and highly motivated softwarfe engineer. I believe he will be a great asset, as a software engineer, to any prospective employer.

Robel has been involved in several resource management systems development projects that include responsibilities such as client requirements analysis , user interface design , programming and developing the website of the company. Robel has been successful in developing software solutions using java, Microsoft SQL and other software engineering and database design technologies.

He has pleasant manners and maintains excellent relationship with his work colleagues. He has demonstrated the ability to work independently and as part of a Team. Most importantly, he is a dependable individual and has very good track record of meeting expectations and deadlines.

Given his strong problem solving, Software development skills , and self-starting altitude , I have no doubt that he will perform well in his futures endeavors , and I look forward to continuing working with him in teh future.

If you have any questions regarding Mr. Robel Testamariam's employemnt, contact our office with the given contact.
